

Christmas is a season of joy
but the rights of the world's
children are not realized even then.

Felm¹⁸⁵⁹

**The most vulnerable children
are the most affected
by the pandemic and the climate crisis.**

Felm¹⁸⁵⁹

The Covid-19 pandemic makes it difficult for children to access health services and schools.

Too many children are left without the care, nutrition, education and security they need.

Felm¹⁸⁵⁹

Felm is committed to working
towards a just and humane world.

Felm¹⁸⁵⁹

**With The Greatest Christmas Carols
campaign we support the most vulnerable
children around the world.**

Felm¹⁸⁵⁹

**Up to 30 % of the world's population
lives without clean drinking water.**

**Every day, nearly 800 children under the age
of five die from diseases caused by dirty water.**

Felm¹⁸⁵⁹

**With Felm's support,
water points built in
Ethiopia provide clean
water to more than
30,000 people!**

**Globally, 1 in 5 children under the age of 5
suffer from malnutrition. The pandemic has
increased the number by hundreds of thousands.**

Felm¹⁸⁵⁹

**Malnutrition endangers a child's
growth and development.**

**It is the underlying cause of death for more
than 3 million children each year.**

**Children with disabilities face a lot of
prejudice and discrimination.**

**In China, deaf children often have to attend
school in regular classes where instruction is
not available in sign language.**

Felm¹⁸⁵⁹

**Felm trains teachers and raises awareness
about disability rights, so that everyone would
have an equal opportunity to learn.**

**More than 600 million children
around the world cannot read or write,
even if they have attended school.**

Felm¹⁸⁵⁹

**In Senegal, for example, schooling is
in French even though many
children speak Serer.**
Only 45% of Senegalese can read.

During the pandemic, many children have been affected by school disruptions and faced the risk of dropping out of school. This increases the risk of being forced into child marriage or child labor.

The Covid-19 pandemic has left more girls exposed to violence and teen pregnancy.

In early 2021, Tanzania reported more than 10,000 deliveries in which the mother herself was a child.

Due to the climate crisis, droughts and extreme weather conditions affect families by reducing their access to livelihood, nutrition and clean water.

Felm¹⁸⁵⁹

Felm supports adaptation to climate change and aims to mitigate its effects.

In Tanzania, we highlight the importance of caring for nature in schools where students are able to plant their own tree seedlings.

Felm¹⁸⁵⁹

**By the end of 2020,
Felm has planted nearly
200,000 trees!**
